Everything Costs More! And Now?

A conversation on inflation in the current global context, with **Jon Hilsenrath**, senior writer for *The Wall Street Journal*, and **Stephen Smith**, senior managing director of Brandywine Global, moderated by **Anujeet Sareen**, portfolio manager, Brandywine Global

The US economy is experiencing the highest inflation in nearly half a century. What is inflation? What causes it and keeps it going? How did the pandemic, supply chain troubles, and the war on Ukraine contribute? How can it be addressed at the institutional level? What can we do to reduce its impact on our own finances? What does the short-term future look like? These are some of the questions the speakers will address.
